

- FLOWELL CORPORATION RT J Plate Holders are designed to fit standard RT J Orifice Flanges.
- FLOWELL CORPORATION offers three types of Ring-Joint Plate Holders:

**Style 560 - Integral**

The ring seal and orifice plate are machined in one piece from a solid piece of material.

**Style 590 - Hold Down Screws**

This ring seal has hold down screws to hold the orifice plate in position, which allows you to change orifice plates without purchasing a new holder.

- All FLOWELL CORPORATION Ring-Joint Plate Holders are manufactured in the oval pattern, which fits ring grooves of both the octagonal or oval ring groove design. Octagonal ring grooves can be supplied at no extra charge.
- The orifice plate for the Style 590 are sold separately.
- Style 560 Plate Holders are available in all sizes and ring numbers.
- Style 590 Plate Holders are available in ring numbers R-24 and above (except R-26 2 1/2").

LINE SIZE	PLATE O.D. A	PLATE THK. B
